

CARDS TO PRINT AND CUT OUT FOR GAMES

The pages in this pdf are for games in the:
Learn piano with Magical Middle C series - Book 1.
There are also Keyboard Charts and a certificate of completion.

Ask a grown-up to cut out the keyboard charts. Select the keyboard chart that fits your piano/keyboard keys.

Keyboard Bingo

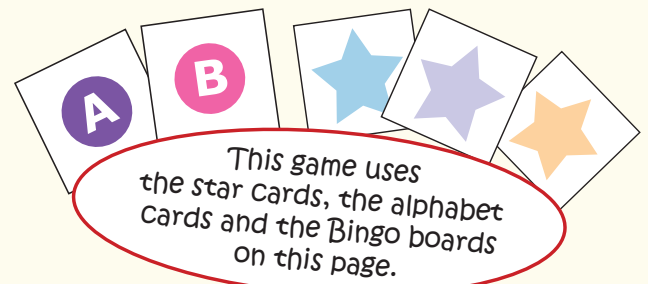

This game helps the student to learn where the keys are on the piano.

Game instructions

- 1 This game is for 2 players and uses the Bingo boards on this page. One player has the blue Bingo board and the other player has the orange Bingo board. Shuffle the alphabet cards and place them face-down in a pile so you cannot see them. Place the star cards face-up in a separate pile.
- 2 Players take it in turns to pick an alphabet card and see if the letter matches one of the keys on a keyboard on their Bingo board. If the letter matches a key on a keyboard, then the player places a star card on top of the matching keyboard square. If the player does not have a matching alphabet card, then

they can place a star card on a free space. If the player picks an alphabet card that does not match a keyboard on their Bingo board and has used all of their free spaces, then they lose a turn. The game continues until a player is the first to cover all of the keyboards and free spaces on their Bingo board with star cards. This player is the winner. Revise page 48 if you are not sure about the keyboard keys.

Make up your own song!

Activity

Is your
song loud
or quiet?

Write your own song here:

Does your
song have fast
parts and/or
slow parts?

Is your
song for one
hand or two
hands?

Does your
song have
repeated
notes? like
AAA, EEE,
CDE, CDE?

Did you
do it?

☐

Tick the box when you
have finished the activity.

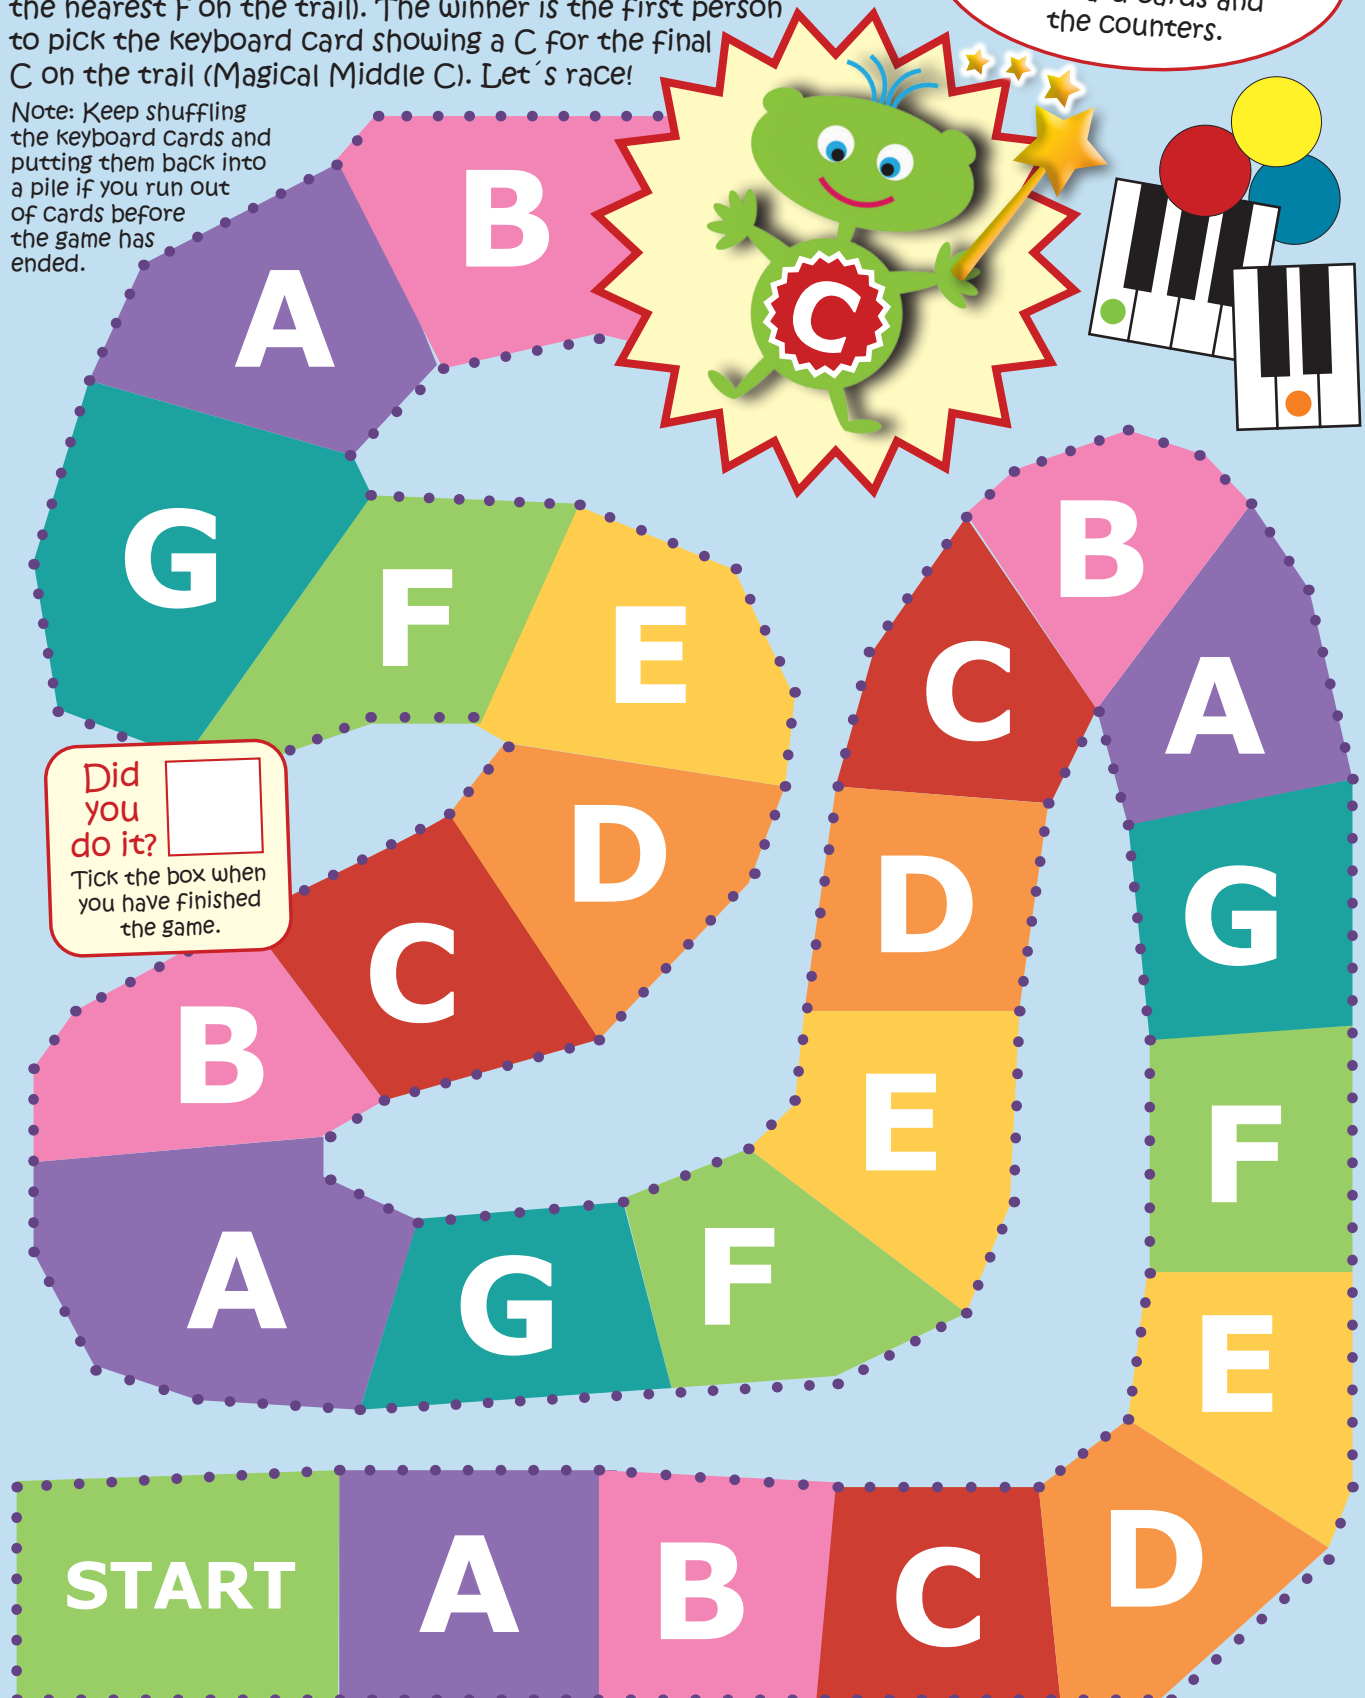

Magical Middle C Chase

Game

Game instructions: Each player picks a counter and places it on the start square. Put the keyboard cards in a pile face-down. Players take it in turns to pick a keyboard card and move their counter to the letter square as shown on the keyboard card (eg. if you have an F on the keyboard card then you move to the nearest F on the trail). The winner is the first person to pick the keyboard card showing a C for the final C on the trail (Magical Middle C). Let's race!

Note: Keep shuffling the keyboard cards and putting them back into a pile if you run out of cards before the game has ended.

This game is for up to 4 players and uses the keyboard cards and the counters.

Congratulations!

This is to certify that
